MOULDED SELF-BAILING DECK (BOAT EMPTY)
- Easy to clean
- Easy to navigate
Zodiac Nautic developed a unique industrial process to assemble its buoyancy tubes: thermobonding. This process consists of welding the pieces of Strongan™ material together to offer a perfect material that is both waterproof, durable, and impact-resistant. Zodiac Nautic is the only manufacturer to master the welding of all structuring materials of an inflatable boat, thus guaranteeing exceptional longevity and security.

CHANGE YOUR BUOYANCY TUBES?
Our versatile designs let you change and replace the tubes quickly and easily, making an update or a refresh simple and inexpensive.

QUALITY TESTED
Zodiac Nautic carefully selects the materials used in our boat construction, and follow strict, functional specifications. Zodiac Nautic tests each hull to ensure they are safe and ready for even the most extreme conditions. With a commitment to quality, your Zodiac boat will follow you everywhere and for a long time to come.

WARRANTY AND REPAIR SERVICE
Our team, based in France, is dedicated to ensuring the best warranty and follow-up service for our dealers and customers. Each boat comes with a manufacturer’s warranty for 2 years on the hull and 5 years on the fabric, which is valid upon owner’s registration.
