

ASSAULT PROFESSIONAL SERIES

HUMBER

HIGH PERFORMANCE RIBS

ASSAULT PROFESSIONAL SERIES

The Offshore is capable of covering longer distances, faster, and in greater comfort than any other comparable RIB on the market.

Size range

The Offshore range has our biggest size options. With lengths ranging from 7-11m and beam options ranging from 2.8 - 3.3m, you're spoilt for choice with the extra width and deck space!

Ideal for charter

With the Offshore offering our biggest size options, this craft is also ideal for charter and Seafari operations and those looking for additional space for any extras that you may have from diving equipment to additional seating.

Cabin option

Don't want to get wet? Although our boats are 'dry boats' the weather can always take a turn for the worst and the heavens may open. The Offshore range comes with a variety of cabin options to counter this.

A rib to suit you

The range of options available for the Offshore series will allow you to create a rib that will cater for your needs. With a number of size and beam options available, there is a larger selection of seating and console arrangements. We will work with you to get your ideal layout and why not hit it out with all the electronics you need, upgrade to a larger fuel tank or upgrade your craft elsewhere to suit your individual requirements.

Unique hull

The unique high performance deep V multi chine hull and perfect high sheer bow combination offers the maximum in high speed, fast to plane and responsive handling with increased fuel efficiency.

A boat for all experience ranges

The quality of the boat will make up for any mistake made by the driver. Easy to navigate and control, it doesn't matter if you're a newbie or a seasoned veteran of the sea, you'll have just as much fun being in control of your Humber!

Test Drive and Advice?

Contact your local Humber dealer for more information and/or arrange a test drive. We want to make you feel at ease and want you to see that we can walk the walk! Start your Offshore adventure here.

ASSAULT PROFESSIONAL SERIES

For two decades these Ribs have enjoyed the ultimate accolade as the 4 x 4 of the Ocean. The preferred choice of commercial operators, these craft have engaged in extensive and rigorous operations. Drop tested from 5.5 meters, self-righting in 15 seconds, heel tested and excessively over loaded to more than double stated capacity in stability tests, all sections were passed with honours. The unique high performance deep V multi chine hull and perfect high sheer bow combination offers the maximum in high speed, fast to plane and responsive handling with increased fuel efficiency. The Offshore is capable of covering longer distances, faster, and in greater comfort than any other comparable RIB on the market.
